

Article(2023)	Number
Effect of combination fluoxetine and exercise on prefrontal BDNF, anxiety-like behavior and fear extinction in a female rat model of post-traumatic stress disorder (PTSD): a comparison with male animals	1
Anti-tumor effects of Bacteroides fragilis and Bifidobacterium bifidum culture supernatants on mouse breast cancer	2
Frequency of significant virulence genes in gastric biopsies of Helicobacter pylori-positive patients with gastritis	3
Frequency of significant virulence genes in gastric biopsies of Helicobacter pylori-positive patients with gastritis	4
Ultrastructural Characterization of Hepatocellular Carcinoma Cells using Atomic Force Microscopy in Liquid and Air Conditions	5
Enhanced spinal cord regeneration by gelatin/alginate hydrogel scaffolds containing human endometrial stem cells and curcumin-loaded PLGA nanoparticles in rat	6
Can HDL cholesterol be replaced by paraoxonase 1 activity in the prediction of severe coronary artery disease in patients with type 2 diabetes?	7
Synergistic Effects of Piperine and Memantine on Reducing the Symptoms of Depression and BDNF Expression in Corticosterone Model of Depression in Amygdala and Hippocampus of Rat Brain	8
Hypothalamus and Post-Traumatic Stress Disorder: A Review	9
Corrigendum to "Silencing adenosine A2a receptor enhances dendritic cell-based cancer immunotherapy" [Nanomedicine Nanotechnol Biol Med 29 (2020) 102240] (Nanomedicine: Nanotechnology, Biology, and Medicine (2020) 29, (S1549963420300940), (10.1016/j.nano.2020.102240))	10
Combined treatment of high-intensity interval training with neural stem cell generation on contusive model of spinal cord injury in rats	11
A Label-Free Optical Nanobiosensor for Measurement of HbA1c via Portable Reader	12
Nanomolecular Magnetic Probe for Colorimetric RT-LAMP of Viral RNA	13
Injectable hydrogels in central nervous system: Unique and novel platforms for promoting extracellular matrix remodeling and tissue engineering	14
3D-printed placental-derived bioinks for skin tissue regeneration with improved angiogenesis and wound healing properties	15
The Upregulation of HLA-G1 and miRNA-34a in Lens Epithelial Cells of Diabetic Retinopathy Patients	16
Neuroprotective effects of chloroquine on neurological scores, blood-brain barrier permeability, and brain edema after traumatic brain injury in male rats	17
Enhancement of immunogenicity and neutralizing responses against SARS-CoV-2 spike protein using the Fc fusion	18
Nanomolecular Magnetic Probe for Detection of Nucleic Acid Sequence-Based Amplification of Covid-19 RNA with the Naked Eye	19
The Effect of Fetal Bovine Acellular Dermal Matrix Seeded with Wharton's Jelly Mesenchymal Stem Cells for Healing Full-Thickness Skin Wounds	20

The differentiation and generation of glucose-sensitive beta like-cells from menstrual blood-derived stem cells using an optimized differentiation medium with platelet-rich plasma (PRP)	21
Potential Inhibitory Effect of Miltefosine against Terbinafine-Resistant Trichophyton indotineae	22
Comparison of Seroflu and Seretide Inhalers on Spirometry Criteria and Clinical Symptoms in Patients with Severe and Moderate Asthma	23
The effect of source animal age, decellularization protocol, and sterilization method on bovine acellular dermal matrix as a scaffold for wound healing and skin regeneration	24
Efficient Neural Differentiation of Mouse Embryonic Stem Cells by Mastic Gum	25
Curcumin-Loaded Mesenchymal Stem Cell-Derived Exosomes Efficiently Attenuate Proliferation and Inflammatory Response in Rheumatoid Arthritis Fibroblast-Like Synoviocytes	26
Paraoxonase 1 activity is associated with interleukin-6 levels in type 2 diabetes: Effects of age and gender	27
Comparing the Effects of High and Moderate Intensity Exercise on Male and Female Rats with and without PTSD: A Behavioral and Biochemical Study	28
Identification and multilocus genotyping of Toxoplasma gondii isolates from congenital infection in north of Iran	29
Mesenchymal Stromal Cells and their EVs as Potential Leads for SARS-CoV2 Treatment	30
In silico analysis of the conserved surface-exposed epitopes to design novel multiepitope peptide vaccine for all variants of the SARS-CoV-2	31
Enhanced sciatic nerve regeneration with fibrin scaffold containing human endometrial stem cells and insulin encapsulated chitosan particles: An in vivo study	32
In Silico Analysis of a Candidate Multi-epitope Peptide Vaccine Against Human Brucellosis	33
Evaluation of circulating innate lymphoid cells in the early pathogenesis of mouse colorectal carcinoma	34
Enhanced yield of cholinergic neurons from induced pluripotent stem cells (iPSC): A two-step induction protocol	35
Comparison and monitoring of antibody response in convalescent and healthy vaccinated individuals against RBD and PCS of SARS-CoV-2 spike protein	36
Serum total carbohydrates, conjugated carbohydrates and total protein glycation index in diabetes mellitus	37
CTLA4-Ig alleviates the allogeneic immune responses against insulin-producing cells in a murine model of cell transplantation	38
Designing novel peptides for detecting the Omicron variant, specifying SARS-CoV-2, and simultaneously screening coronavirus infections	39
Antimicrobial peptide-loaded decellularized placental sponge as an excellent antibacterial skin substitute against XDR clinical isolates	40
Generation of glucose sensitive insulin-secreting cells from human induced pluripotent stem cells on optimized polyethersulfone hybrid nanofibrous scaffold	41
Correction to: [99mTc]-labeling and evaluation of a new linear peptide for imaging of glioblastoma as a alphavbeta3-positive tumor (Annals of Nuclear Medicine, (2022), 36, 11, (976-985), 10.1007/s12149-022-01786-w)	42

The Protective Effects of Trametes Versicolor on Arsenic-Induced Male Reproductive Toxicity through Regulation of Oxidative Stress: A Biochemical and Histopathological Survey	43
Is There Glycotoxicity Similar to Lipotoxicity in Diabetic Tissues?	44
Cystic echinococcosis microRNAs as potential noninvasive biomarkers: current insights and upcoming perspective	45
Cancer Drug Resistance Reduction via Co-treatment with Oxaliplatin and Nitazoxanide: Targeting the ABC Transporters	46
Retraction Note: Combination Cancer Immunotherapy with Dendritic Cell Vaccine and Nanoparticles Loaded with Interleukin-15 and Anti-beta-catenin siRNA Significantly Inhibits Cancer Growth and Induces Anti-Tumor Immune Response(Pharmaceutical Research, (2022), 39, (353-367), 10.1007/s11095-022-03169-2)	47
Neuroprotective Effects of Allicin on Neurological Scores, Blood Brain Barrier Permeability and Brain Edema Following Severe Traumatic Brain Injury in Male Rats: A Behavioral, Biochemical and Histological Study	48
Correction to: In Silico Design and Verification of LAMP-BDNF Chimeric Protein for Presentation of BDNF on the Surface of Exosomes for Drug Delivery Through Blood-Brain Barrier (J Mazandaran Univ Med Sci 2023)	49
Insulin-Like Growth Factor-I Axis Changes in Fasting Among Healthy and Prediabetic Men: A Case-Control Study	50
The Role of Advanced Technologies against COVID-19: Prevention, Detection, and Treatments	51
